KT Canada Presents: Monika Kastner

Scientist, Li Ka Shing Knowledge Institute, St Michael's Hospital

The potential of knowledge translation tools to improve chronic disease management: An interrupted time series analysis of an osteoporosis tool in primary care

Thursday, January 9, 2014 1200-1300 ET

Learning Objectives:

- To understand how the complete knowledge-to-action cycle can be applied in the development and evaluation of a KT tool
- To understand how to conduct an interrupted time series study across multiple settings
- To highlight the potential of chronic disease management tools in primary care

Live/Archived Webcasts: <http://webcast.otn.ca> Session ID: 24332106

Each session includes a question and answer period (15 minutes per 1 hour session)

Evaluations and Slides: www.ktcanada.net (slides are posted after the session)

TO REGISTER:

This session is offered by Telehealth (videoconference) from St. Michael's Hospital in Toronto.
*** Registration information is for sites participating by videoconference only. Webcast participants do not need to register ***

OTN sites: Please reserve your studio and ask your coordinators to email KleinG@smh.ca. OTN Telemedicine coordinators can also self-schedule by clicking on the following link:
<https://schedule.otn.ca/tsm/portal/nonclinical/details.do?request.requestId=24332106>

Non-OTN sites: please contact Resolve: info@resolvecollaboration.com or 1-888-777-7965, session # 16318. Please ask them to test your connection prior to the call.

Site registration deadline is January 2, 2013, 5 PM ET. After the deadline, individuals can participate by webcast only. Individuals viewing by webcast do not need to register.

*** 1 CME credit from the Royal College of Physicians and Surgeons of Canada
