KT Canada Presents:

Tom Stelfox

Assistant Professor, Critical Care Medicine, Medicine
and Community Health Sciences, University of Calgary

Developing quality indicators when there is limited evidence: the example of injury care

Thursday, February 9, 2012

1400-1500 ET

Learning Objectives:

- To review strategies for determining the need for developing quality indicators
- Review the value of environmental scans to learn what others are doing
- Discuss the potential role of consensus methodologies to bridge the gap between the evidence base and the need for developing applied measures

Live/Archived Webcasts: <http://webcast.otn.ca> Session ID 17322965

Each session includes a question and answer period (15 minutes per 1 hour session)

Evaluations and Slides: www.ktcanada.net (slides are posted after the session)

To register:

This session is offered by Telehealth (videoconference) from St. Michael's Hospital in Toronto. *** Registration information is for sites participating by videoconference only. Webcast participants do not need to register ***

OTN sites: Please reserve your studio and ask your coordinators to email kleing@smh.ca. OTN Telemedicine coordinators can also self-schedule by clicking on the following link: <https://schedule.otn.ca/tsm/portal/nonclinical/details.do?request.requestId=17322965>

Non-OTN sites: please contact Resolve: info@resolvecollaboration.com or 1-888-777-7965, session # 12229. Please ask them to test your connection prior to the call.

Site registration deadline is February 2, 2012, 5 PM ET. After the deadline, individuals can participate by webcast only. Individuals viewing by webcast do not need to register.

Telemedicine broadcasting made possible by SACYHN (Southern Alberta Child and Youth Health Network)
