## KT Canada Presents: Dr Melissa Brouwers

**Title:**

When It Worked and When It Didn't – Tales from a Pragmatic KT Scientist

**The objectives of this session are for participants to learn about:**

- Methods that can be used to create reliable and valid tools to support KT action.
- Factors of the research enterprise that might explain why some studies "succeed" and other studies "fail"
- What one might do when a study "fails"

**Dr Melissa Brouwers** is a Professor and Lead of Health Services Research in the Department of Oncology, McMaster University; Deputy Director and Scientist, Escarpment Cancer Research Institute, McMaster University; associate member in the Department of Clinical Epidemiology and Biostatistics, McMaster University and the Provincial Director (Scientific) of the Program in Evidence-based Care (PEBC), Cancer Care Ontario (CCO).

She holds a PhD in Psychology from the University of Western Ontario. Melissa is an active and leading member of various national and international health services research groups with a special focus on practice guidelines including the Principal Investigator of the AGREE Enterprise – a research program aimed to improve the quality and implementability of guidelines; the Knowledge Translation Lead of the CanIMPACT project – a national program of research aimed to improve outcomes for people affected by cancer; and a member of the KT-NET Advisory Committee of the Ontario Institute for Cancer Research (OICR). She is also the McMaster University co-lead for the National KT-STIHR (Strategic Training Initiative in Health Research) grant and a member of KT Canada.
