KT Canada National Seminar Series

KT Canada Presents:

Reza Yousefi Nooraie

Title:

A network analysis perspective to implementation science; lessons learned from a mixed methods study of Public Health Units in Ontario

Learning objectives:

- To understand the principles of social network analysis
- To illustrate different potentials for application of network analysis to study predictors, processes, and outcomes of implementation
- To discuss the value of Mixed Methods in designing network studies

Reza Yousefi Nooraie is a post-doctoral fellow at the Institute of Health Policy, Management, and Evaluation (IHPME), University of Toronto. His main area of interest is social and organizational aspects of implementation science and knowledge translation. He obtained his medical doctorate at Tehran University of Medical Sciences, and his Masters and PhD of Health Research Methodology at McMaster University, and was a Vanier Canada Scholar. He is currently studying the use of network analysis in studying partnership among health quality improvement teams.

TO REGISTER:

This session is offered by WEBEX from St. Michael's Hospital in Toronto. All registration requests must be sent to Gail Klein: KleinG@smh.ca by Wednesday, November 9th at 12:00 PM ET.

To register a site: please identify one person who will be in attendance and provide their email address to Gail Klein. To register as an individual; please email Gail Klein.

PLEASE NOTE THAT ALL INDIVIDUALS MUST REGISTER TO ATTEND AS YOU NEED TO BE INVITED INTO THE WEBEX SESSION

Technical requirements: You need a computer with Google Chrome and a telephone or computer microphone or headset.

Each session includes a question and answer period (15 minutes per 1 hour session)

Archived sessions will be posted within 3 business days on our [website](#).
