KT Canada National Seminar Series

KT Canada Presents:

Joan L. Bottorff, PhD, RN, FCAHS, FAAN

Title:

Evidence to practice: Designing gender-sensitive health promotion approaches for men

Learning objectives:

- Outline the approach used to develop and evaluate a novel intervention based on qualitative evidence using as an example the Dads in Gear program.
- Learn about approaches for engaging men in aiding the translation of evidence into messages and strategies that can be used to support their efforts for lifestyle change.
- Appreciate the value of integrating gender-related influences in designing health promotion programs.

Dr. Joan L. Bottorff is a Professor in the School of Nursing and Director of the Institute for Healthy Living and Chronic Disease Prevention at the University of British Columbia's Okanagan campus in Kelowna, Canada. She is an Affiliate Scientist at the BC Cancer Agency, a Fellow of the Canadian Academy of Health Sciences, and a Fellow of the American Academy of Nursing. Her research program focuses on developing more inclusive understandings of health behaviours, and the development of gender-sensitive and gender-specific health promotion interventions for women and men.

TO REGISTER:

This session is offered by WEBEX from St. Michael's Hospital in Toronto. All registration requests must be sent to Meghan Storey: StoreyM@smh.ca by Wednesday, April 12, 2017 at 12:00 PM ET.
