KT Canada brings you:
Annie LeBlanc, PhD

Presented in conjunction with
Laval University

Title:

Meaningful translation of comparative effectiveness research at the point of care

Learning objectives:

Audience will be able to:

- outline the value of shared decision making as a mean to translate comparative effectiveness (CER) into practice and contribute to patient centered care,
- discuss barriers and facilitators to the successful translation and implementation of CER into practice, and
- reflect on the best strategies to enhance patient and clinician involvement in research while remaining minimally disruptive to the practice

Dr. Annie LeBlanc, PhD is a clinical epidemiologist, Associate Professor in the Department of Family Medicine and Emergency Medicine, Faculty of Medicine at Laval University, Investigator at Laval University's Institute of Health and Social Services in Primary Care and the Knowledge and Evaluation Research Unit at Mayo Clinic, MN (USA). She is Co-director of the Knowledge Translation Core of the Quebec SPOR-SUPPORT Unit. Her research centers around the translation of comparative effectiveness research into practice through the design, evaluation, implementation, and sustainability of patient-centered interventions, such as shared decision making, and their impact on patient important outcomes. Of importance to the success of this work, is the conduct of pragmatic research that is minimally disruptive to the practice and the engagement of stakeholders throughout each stage of the work to ensure that the research processes and outcomes are focused on what really matters to patients.

TO REGISTER:

This session is offered by WEBEX from St. Michael's Hospital in Toronto. All registration requests must be sent to Meghan Storey: StoreyM@smh.ca by Wednesday, Oct. 11, 2017 at 12:00 PM ET.

To register a site: please identify one person who will be in attendance and provide their email address to [Meghan Storey](mailto:Meghan.Storey). To register as an individual; please email [Meghan Storey](mailto:Meghan.Storey).

PLEASE NOTE THAT ALL INDIVIDUALS MUST REGISTER TO ATTEND AS YOU NEED TO BE INVITED INTO THE WEBEX SESSION

Technical requirements: You need a computer with Google Chrome and a telephone or computer microphone or headset.

Archived sessions will be posted within 3 business days on our [website](http://www.ktcanada.ca).
