McMaster participants should email Meghan Storey for the Webex information

SAVE-THE-DATES!

Fall:

Dec. 14

To add a site and for more information, please contact Meghan Storey: StoreyM@smh.ca

KT Canada brings you: Guillermina Noël

Presented in conjunction with the
Alberta SPOR SUPPORT Unit Knowledge
Translation Platform

Title:

The value of human-centred design when creating KT strategies

Learning objectives:

After participation in this lecture participants will be able to:

- Describe the Human centred design approach, its process and characteristics
- Compare a KT process and a Human centred design process, and
- Apply some Human centred design concepts to plan KT strategies.

Dr. Guillermina Noël applies a human-centred, evidence-based, and outcomes-oriented design approach to improve healthcare. She is the health knowledge designer, at the PLP office within the Faculty of Medicine & Dentistry at the University of Alberta. In this role, Gui (Ghee) supports teams by helping them to understand the users' needs, integrating their requirements with those of the KT team, and co-designing tools seeking to achieve impact at scale. In her spare time is also the Director of the Health Design Network.

TO REGISTER:

This session is offered by WEBEX from St. Michael's Hospital in Toronto. All registration requests must be sent to Meghan Storey: StoreyM@smh.ca by Wednesday, Nov. 8, 2017 at 12:00 PM ET.
