

# End of Grant Knowledge Translation (KT) Course

A training opportunity to provide researchers, trainees and others with the knowledge and skills to design an end of grant KT plan.

This online course will be delivered across 3 webinars and interactive discussion sessions. Participants will develop an end of grant KT plan as part of their course work.

## Webinar dates:

**January 17, 2018** 1:00 – 2:30pm

**February 2, 2018** 1:00 – 2:30pm

**February 12, 2018** 12:00 – 1:30pm

## Between and after webinars:

- Develop end of grant KT plan
- Get feedback on plan from KT expert

---

## What is Knowledge Translation (KT)?

Knowledge translation (KT) is a bridge between research evidence and practice in an effort to strengthen health systems and improve health outcomes. But how do you apply this evidence?

At the KT Program, we believe that we can implement change in the health system by thinking about change differently. Our approach to KT is rooted in theory and science, but our application of KT is uniquely pragmatic and focused on real-world impact. Our training initiatives focus on empowering individuals and organizations in the health system with knowledge and support to do KT.

---

## Our course offers:

- A learning environment to help you set and meet your individual KT learning goals.
- Interactive activities and assignments to help you develop your end of grant KT plan
- Review of your end of grant KT plan and personalized feedback by KT experts.
- An opportunity to connect with other professionals and share experiences, challenges, and successes.

## Participants will learn how to:

- Develop an end of grant KT plan
- Assess impact of research – how to use and interpret bibliometrics and altmetrics
- Develop an approach to help tell your story using media and social media

## Key Speakers:

- Sharon Straus, MSc, MD (Director and Principal Investigator, Knowledge Translation Program, Li Ka Shing Knowledge Institute, St. Michael's Hospital; Professor, Dept of Medicine, University of Toronto)
- Kim Barnhardt (Communications and Partnerships Strategist, Canadian Medical Association Journal)
- Jessie McGowan, PhD (Adjunct professor, Dept of Medicine, University of Ottawa; Associate Editor, Journal of Clinical Epidemiology).

## Who should participate?

- Professionals in any health-related discipline who are interested in learning the basics of end-of-grant KT. Course attendees can use their own grants to develop an end-of-grant KT plan.

## Cost

\$500 CAD per person.

The cost includes three 1.5 hour webinars, personalized feedback and support, and access to online resources.

---

## Registration

To register, please visit: <https://www.eventbrite.com/e/end-of-grant-knowledge-translation-course-january-february-2018-tickets-41306697444>

If you would like to discuss whether this course aligns with your learning goals and needs, please contact Meghan Storey: [StoreyM@smh.ca](mailto:StoreyM@smh.ca).

## Cancellation Policy:

A processing fee of 30% will be retained on all cancellations made after January 12<sup>th</sup>, 2018. Requests for cancellation must be made in writing. Registrations are not transferable. The KT Program reserves the right to cancel events. Registrants will be notified at the earliest possible date in the event of a cancellation. Registration fees for events cancelled by the KT Program will be refunded; however the KT Program will not be liable for any loss, damages or other expenses that such cancellations may cause.
