

**List of abstracts being presented on May 30-31 in Winnipeg
at KT Canada Scientific Meeting**

**Knowledge
Translation
Canada**

Alexie Touchette	Asynchronous Online Focus Group: A Methodological Approach to Engage Canadians with Limited Mobility
Ali Ben Charif	Implementation research on shared decision making in primary care: an inventory of intracluster correlation coefficients
Ali Ben Charif	Pitfalls of scaling up health interventions: a qualitative study followed by a rapid literature review
Alia Januwalla	CHOICES: Using an integrated KT approach to co-create patient education tools for lipid management in Ontario
Alyson Campbell	The development and usability evaluation of an interactive infographic as a knowledge translation tool for pediatric acute otitis media
Amédé Gogovor	Quality of reporting of scaling up strategies for evidence-based practices
Ann W Outlaw	Connecting Policymakers to Disability and Rehabilitation Evidence
Clayon Hamilton	A conceptual evaluation framework for an initiative to engage patients, families, caregivers, and the public in a provincial health-care system: a scoping review protocol
Davina Banner	The Canadian Community Utilization of Stroke Prevention Study in Atrial Fibrillation in the Emergency Department (C-CUSP ED)
Davina Banner	Patient and Public Engagement in Integrated Knowledge Translation Research: Are we there yet?
Emily Belita	Assessing competence attributes of evidence-informed decision-making (EIDM) in nursing: A psychometric systematic review of measures
Erin Faught	Establishing a knowledge foundation for the creation of a Participant Advisory Committee (PAC) for Alberta's Tomorrow Project (ATP), a longitudinal cohort study
Erna Snelgrove-Clarke	Embedding Clinical Research: Building an Interdisciplinary Person Centred Program of Research
Femke Hoekstra	Principles, strategies, outcomes, and impacts of integrated knowledge translation and other research partnership approaches: A review of reviews

Gabrielle Zimmermann	Are researchers getting i(K)T?
Genevieve Creighton	The KT Pathways: An iKT approach to creating a tool for assessment and learning
Graham G Macdonald	Patient engagement as personal transformation: A narrative analysis of patient experience as engaged partners in research
Jacqueline Roberge-Dao	A Mixed-Methods Approach to Understanding Partnership Experiences and Outcomes of Projects from an Integrated Knowledge Translation Funding Model in Rehabilitation
Jacqueline Roberge-Dao	The Development of a Novel Methodological Approach to Measuring Evidence-Based Practice in Rehabilitation
Jananee Rasiah	Integrated Knowledge Translation Meets Patient Engagement: A Case Study in Critical Care to Advance Patient-Oriented Research
Jasmin Ma	Improving the implementation of a successful physical activity intervention in the physiotherapist setting
Jenny Leese	Using Physical Activity Wearables in Self-Management from the Perspectives of Persons Living with Arthritis: A Qualitative Evidence Synthesis
Jose Massougbdji	Dissemination of research results in the public libraries network: an integrated knowledge transfer project
Karen Spithoff	Assessing barriers and facilitators to implementation of an early rehabilitation bundle in a pediatric intensive care unit
Karen Spithoff	Evaluating the implementation of a program to improve screening and communication of risk of violent, aggressive, and responsive patient behaviours in a hospital setting
Kate Einarson	Using an Integrated Knowledge Translation approach to guideline development: A strategy for engaging patients in the development of a clinical practice guideline on screening in primary care
Kerryn Husk	Social prescribing; developing a nuanced evidence base in collaboration with clinical practice
Kiran Pohar Manhas	Early-Adopters' Experiences of Implementing a new Model of Care in Community Rehabilitation
Lisa Knisley	Developing a parent advisory group for a knowledge mobilization network in pediatric emergency medicine: A road map
Lisa M Puchalski Ritchie	Impact of a knowledge translation intervention on Tuberculosis treatment completion rates in Malawi

Majidullah Shaikh	Understanding knowledge-to-action processes in a pilot study of implementing trauma-informed approaches in community sport settings
Marcella Campbell	Supporting implementation of an electronic health record in long term care by developing a pre-implementation survey
Marie-Helene Poirier	A Tool for Prevention of Musculoskeletal Disorders Among Nursing Staff: Dissemination and Evaluation Strategies
Masood Khan	Disseminating the foundations of knowledge translation science and practice: A quantitative descriptive evaluation of reach and engagement of the KnowledgeNudge blog and Twitter profile
Maulik Baxi	Affecting Change in the Midst of a Crisis - Piloting a Two-Pronged Strategy to Opioids Focused on Tackling Patient Care and Physician Health
Maya Jeyaraman	Patient and Public Engagement in a Systematic Review: A case study
Megan Highet	From 'bridging the gap' to 'closing the loop': examining the Alberta Cancer Prevention Legacy Fund's approach to research as an integrated KT (iKT) organization
Melissa Demery Varin	An integrated knowledge translation project exploring determinants of single fraction palliative radiation therapy for uncomplicated bone metastases
Patricia Roche	Planning for partnership: A roadmap for engaging knowledge users in research
Rhyann McKay	What strategies influence Integrated Knowledge Translation partnerships? A retrospective analysis of a partnership that aimed to understand Emergency Department use
Rosmin Esmail	A Knowledge Translation Theory, Model or Framework for Health Technology Reassessment: Does one exist?
Samantha Seaton	Creating historical maps of adoption to facilitate deadoption: A scoping review
Sara Kreindler	Simplicity in complexity: How a realist approach can advance the evaluation of integrated KT
Sawadogo Jasmine	Effects of extended scope of practice in family physicians: a rapid review involving knowledge users
Shannon Scott	Developing and evaluating two knowledge translation tools for parents with a child with fever
Stacey D. Guy	The development and formative evaluation of a clinical practice implementation toolkit for health care providers

Stephanie Chesser	Using a citizen science approach to explore the age-friendliness of an urban neighbourhood
Zeinab El-Masri	Maximizing research impact on cancer prevention: an integrated knowledge translation approach used by the Canadian Population Attributable Risk of Cancer (ComPARE) study
