McMaster participants should email Meghan Storey for the Webex information

SAVE-THE-DATE!

December 13

To add a site and for more information, please contact Meghan Storey: StoreyM@smh.ca

KT Canada and the University of Laval bring you: **Dr. Matthew Menear**

Title:

Embedding KT research within a provincial quality improvement program for chronic diseases in primary care

Learning objectives:

1. Describe the provincial COMPAS+ quality improvement program and some of its key components;
2. Describe how different KT research methodologies are being used in different phases of this program;
3. Summarize the benefits and disadvantages of embedded research within Canadian healthcare agencies like INESSS.

Dr. Matthew Menear is currently a postdoctoral fellow affiliated with the Institut national d'excellence en santé et en services sociaux (INESSS) and the Research Centre on Primary Healthcare and Services of Laval University. He completed his doctoral training within the School of Public Health at the University of Montreal, specializing in the organization of healthcare services. His research focuses on the delivery and organization of mental health and addiction services within primary care and on the engagement of patients and families in their care. His project with INESSS will focus on the development and evaluation of COMPAS-SM, a new patient-oriented intervention designed to promote reflexivity and quality improvement in mental health care within primary care settings in the province of Quebec.

TO REGISTER:

This session is offered by WEBEX from St. Michael's Hospital in Toronto. All registration requests must be sent to Meghan Storey: StoreyM@smh.ca by Wednesday, November 7, 2018 at 12:00 PM ET.

To register a site: please identify one person who will be in attendance and provide their email address to Meghan.Storey. To register as an individual; please email Meghan.Storey.

PLEASE NOTE THAT ALL INDIVIDUALS MUST REGISTER TO ATTEND AS YOU NEED TO BE INVITED INTO THE WEBEX SESSION

Technical requirements: You need a computer with Google Chrome and a telephone or computer microphone or headset.
