KT Canada brings you:
Dr. Angela Fong

“Developing a Knowledge Translation Tool to Facilitate Physical Activity Discussions in Oncology Care”

Learning objectives:

At the end of this presentation the audience will be able to:

1. Identify current knowledge-to-practice gaps in oncology practice with respect to physical activity promotion among cancer survivors.
2. Describe a mixed-methods approach to applying the AGREE II instrument in oncology care and health promotion contexts.
3. Identify areas for future research using knowledge translation science to promote physical activity among cancer survivors.

Dr. Angela Fong is a faculty member (Instructor of Medicine) in Population Science at the Rutgers Cancer Institute of New Jersey and in Medical Oncology at Robert Wood Johnson Medical School, Rutgers University. Her research program aims to understand the influence of physical activity on psychosocial outcomes in women diagnosed with cancer using novel mobile and e-health interventions. Her work integrates multidisciplinary methods from health psychology and knowledge translation. Dr. Fong has received funding from the Canadian Cancer Society, Canadian Breast Cancer Foundation and the Cancer Center Support Grant from Rutgers University.

TO REGISTER:

This session is offered by WEBEX from St. Michael's Hospital in Toronto. All registration requests must be sent to Meghan Storey: Meghan.Storey@unityhealth.to.

To register a site: please identify one person who will be in attendance and provide their email address to Meghan.Storey. To register as an individual; please email Meghan.Storey.

PLEASE NOTE THAT ALL INDIVIDUALS MUST REGISTER TO ATTEND AS YOU NEED TO BE INVITED INTO THE WEBEX SESSION
