KT Canada brings you:
Dr. Christine Cassidy

“Working Collaboratively within the Health System: Lessons learned from an embedded KT scientist”

Learning objectives:

At the end of this presentation the audience will be able to:

1. Describe an integrated knowledge translation approach to addressing knowledge to action gaps in pediatric care,
2. Identify strategies for becoming an effective research partner,
3. Discuss future directions for collaborative health services research.

Dr. Christine Cassidy is a registered nurse, Assistant Professor in the School of Nursing at Dalhousie University, and Affiliate Scientist at the IWK Health Centre. She received her BScN from the University of Prince Edward Island and PhD in Nursing from Dalhousie University. Most recently, she completed a CIHR Health System Impact Postdoctoral Fellowship at the IWK Health Centre and University of Ottawa with the Integrated Knowledge Translation (IKT) Research Network. Her program of research uses an IKT approach to design, implement, and evaluate evidence-based practices and knowledge translation interventions in pediatric care.

TO REGISTER:

This session is offered by WEBEX from St. Michael's Hospital in Toronto. All registration requests must be sent to Meghan Storey: Meghan.Storey@unityhealth.to.

To register a site: please identify one person who will be in attendance and provide their email address to [Meghan Storey](mailto:Meghan.Storey@unityhealth.to). To register as an individual; please email [Meghan Storey](mailto:Meghan.Storey@unityhealth.to).

PLEASE NOTE THAT ALL INDIVIDUALS MUST REGISTER TO ATTEND AS YOU NEED TO BE INVITED INTO THE WEBEX SESSION. Technical requirements: You need a computer with Google Chrome and a telephone or computer microphone or headset.

Archived sessions will be posted in approximately 1 week on our [website](#) and [YouTube channel](#), pending consent from the presenter.
