

KT Canada Scientific Meeting 2022 – Program at a Glance

Presenter(s)	Title
Plenary Talks <i>(In order of appearance)</i>	
Dr. Vincent Larivière	The effects of COVID-19 on the dissemination of research
Doriane Etienne Dr. Holly Witteman	Digital knowledge translation to the public in an evolving pandemic context
Panel Discussions	
Dr. Naomi Lee Dr. Kirsten Patrick Dr. David Moher Moderator: Dr. Ruth Ndjaboue	COVID-19 Publication Overload
Dr. Michelle Driedger Dr. Sarah Funnell Chris McCutcheon Dr. Justin Pousseau Dr. Borsika Rabin Moderator: Dr. Maoliosa Donald	Advancing dissemination science during COVID-19 - Targeting a variety of audiences and measuring impact
Dr. Rinad Beidas Dr. Tina Fahim Dr. Dawn Stacey Moderator: Dr. Christine Cassidy	Evolving methods to accelerate dissemination science during COVID-19
CIHR Presentation	
Alison Bourgon Amanda Crupi Sheena Chan	Shaping CIHR's Knowledge Mobilization Framework and Action Plan
Oral Presentations <i>(In order of appearance)</i> <i>These will be pre-recorded presentations with live Q&A. Each presenter will have maximum 15 minutes total, which includes the recorded presentation + up to 5 minutes of Q&A.</i>	
Day 1	
Christine Ackerley	Effective argumentation for action in AMR: A textual case study of the UK's Review on Antimicrobial Resistance final report
Kaylee Byers	"I just feel there's a real communication problem": Perceptions of Public Health Communications by Women in Caregiving Professions in British Columbia

Dayre McNally	Combining machine learning and crowdsourcing for systematic and scoping review citation screening: Derivation and validation of two hybrid algorithms
Brenda Tittlemier	A Scoping Review to Identify and Describe Characteristics of Theories, Models and Frameworks of Health Research Partnerships
Day 2	
Lubna Daraz	Rapid systematic review - Health information seeking by patients and the public relevant to COVID-19
Prasanna Kannan	Adapting to remote engagement and knowledge mobilization during the COVID-19 pandemic: Learnings from the Smart Indigenous Youth (SIY) project
Alda Kiss	Patient-targeted resources to support decisions about Medical Assistance in Dying in Canada: An online environmental scan
Day 3	
Christine Cassidy	Using a Learning Health System Framework to Examine COVID-19 Pandemic Planning and Response
Emily Clark	Conducting rapid reviews for health policy makers during the pandemic in an evolving evidence ecosystem: new synthesis methods and dissemination plans
Gabrielle Chicoine	Impact of an evidence-based educational intervention to improve concurrent disorder management: findings from a prospective cohort study of healthcare professionals in Quebec, Canada
Daniel Niven	De-implementation of Low-value Albumin Fluid Resuscitation in Critical Care – Customized KT during a Pandemic
<i>Posters (In order of appearance)</i>	
<i>These will be pre-recorded presentations with live Q&A. Each presenter will have maximum 5 minutes total, which includes the recorded presentation + up to 2 minutes of Q&A.</i>	
Day 1	
Vincent Boucher	Truth or Pandemic: A platform, Podcast and Online Game to fight COVID-19 misinformation
Nancy Butcher	CommuniKIDS: Co-development and dissemination of a tool for communicating trial results in child health research
Tina Cheng	Tailored COVID-19 Public Health Messaging for Young Adults
Claudyne Chevrier	Mobilizing TB Stories in Northern Prairie First Nations Communities: Developing and Evaluating Patient-Centered KT Products for TB Elimination
Lissa Pacheco-Brousseau	Hip and Knee Total Joint Arthroplasty Online Knowledge Translation Resources for Patients and Healthcare Professionals: A Canadian environmental scan
Mari Somerville	Engaging decision-maker and patient partners in COVID-19 rapid review research
Day 2	
Leah K Crockett	Characterizing health research partnerships in child health: a scoping review

Tami Morgan	A scoping review of tools to guide clinical discussions on physical activity, sedentary behaviour, and/or sleep for health promotion between primary care providers and adults who access care
Nisha Nigil	Evaluation of the Work-Up for Thyroid Nodules in Primary Practice Across Northern Ontario
Alexandra Korall	A systematic, consensus-based approach to select theories, models and frameworks for implementation practice: Development using a case example with hip protector use in long-term care and proposal of a model
Carole Lunny	The development of a new risk of bias tool for network meta-analysis
Wilmer Santos	The Effectiveness of Champions in Implementing Innovations in Healthcare Settings: A Systematic Review
Day 3	
Celia Laur	Trainees' experiences with Integrated Knowledge Translation during the COVID-19 pandemic
Karen Strange	Establishing a National Research Network in a Virtual World
Lupin Battersby	Piloting a new research-to-policy communication initiative for graduate trainees at Simon Fraser University: What worked well, what did not work, and return on investment
Carole Lunny	A new taxonomy was developed for overlap across 'Overviews of systematic reviews': a meta-research study of research waste
Jennifer Shuldiner	Leveraging the trust of family physicians to contact unvaccinated patients using rostered patients list from Ontario Health
Kate Wahl	Supporting evidence-based, values-aligned choice of early abortion method: Development of an online patient decision aid

Additionally, please see the conference website for these posters, abstracts & brief recorded presentations:

Emily Belita: For youth by youth: Creating knowledge mobilization tools for the COMPASS study

Christine Cassidy: Trainee-led research using an integrated knowledge translation approach: a scoping review

Roberta de Carvalho Corôa: Developing a patient-oriented tool for assessing the scalability of innovations in community-based primary health care in Canada

Cynthia Gagnon: A Network's Approach to Adapting Knowledge Translation Strategies for Neuromuscular Diseases

Dina Gaid: Profiling knowledge brokers in the rehabilitation sector across Canada: A descriptive study

Dina Gaid: Nationwide Environmental Scan of Knowledge Brokers Training

Alison Hoens: Sharing Research Findings With Target Audiences: What does the literature tell us about information formats & data visualizations?

Ralph Hsiao: The Prevalence of Standardized Reporting System Usage of Sonographically Detected Thyroid Nodules

Alia Januwalla: Planning for KT as an Ethical Imperative: Validating the "Knowledge Dissemination in Patient- and Community-Oriented Research Ethics Assessment Tool (KD-PCOREAT)" with Research Ethics Boards in British Columbia using a Modified Delphi Approach

Sabrina Jassemi: Developing and evaluating tailored dissemination strategies for different audiences: What have we learned from dissemination science during COVID-19?

Ahmad Khalid: Decision-makers' experiences with rapid evidence summaries to support real-time evidence informed decision-making in crises: A mixed methods study

Zeba Khan: Navigating Sexual & Reproductive Health: Perspectives of Im/migrant Youth in BC

Celia Laur: Identifying high-priority implementation science research questions regarding equity, sustainability, spread, and scale of effective evidence-based practices

Carole Lunny: Over half of clinical practice guidelines use non-systematic methods to inform recommendations: A methods study

Nicole MacKenzie: Supporting diverse stakeholder engagement in implementation of evidence for children's pain management: A discrete choice experiment study protocol

Jessica Manette: Exploring Current Nutritional Programming and Resources Available to People Living with HIV/AIDs in Canada: Food NOW Project

Julia Santana Parrilla: It's about trust: promoting COVID-19 vaccine confidence in Provincial Correctional Centres with people who are incarcerated

Sheikh Qadar: Knowledge Brokering with partners: building an integrated Knowledge Translation (KT) framework for Canadian Institutes of Health Research (CIHR) grants on SARS-CoV2

Jessica Reszel: How community-based teams used the Stroke Recovery in Motion Implementation "Planner": A field-test study

Jennifer Roters: The effect of online materials on student performance: types of resources, mode of delivery

Shannon Scott: Overcoming emerging COVID19 challenges with relatable science: Developing and evaluating knowledge translation tools for families

Lucas Gomes Souza: Healthcare professionals' intention to engage in serious illness conversations after team-based versus individual-based training in advanced care planning: secondary analysis of a cluster randomized clinical trial

Julie Stinson: Developing and communicating linked responses to substance use and intimate partner violence

Vanessa Tomas: Co-designing a disability disclosure decision-aid guide and planning tool for Canadian autistic youth and young adults: DISCLOSURE (Do I Start the Conversation and Let On, Speak Up and REveal?)

Jennifer Tomasone: Inclusive movement behaviour guideline messaging: A subtle change with ripple effects

Kirthika Venkatesan: COVID-19 Vaccine Hesitancy Among Medical Students: A Systematic Review

Krooti Vyas: Development of an Adolescent Advisory Group to Inform Sexual and Reproductive Health Research for First- and Second-Generation Immigrant Adolescents in Canada: A Community-Based Participatory Action Research Study

Kate Wahl: Development and implementation of a prescriber checklist and reference guide for mifepristone medication abortion

John Zhao: Social Media for ImpLementing Evidence (SMILE): A Conceptual Framework
