KT Canada brings you:
Dr. Sabrina Wong

“Using Primary Care Electronic Medical Record Data to Inform Practice Quality Improvement”

Learning objectives:

At the end of this presentation the audience will be able to:

1. Identify a potential source of data for primary care quality improvement.
2. Identify tips for improving the science of quality improvement in primary care.
3. Learn about one-two use case examples where electronic medical record data has informed quality improvement.

Dr. Sabrina Wong's research focuses on the delivery and organization of primary health care services. She examines both supply side factors such as human resources (e.g. different providers and teams) influencing the quality of primary health care and demand side factors such as access to care and the association of sector (e.g. primary care and public health) collaborations on integration of care. Wong has expertise working with large administrative datasets, survey development and psychometric analysis.

Dr. Wong is the co-lead both the pan-Canadian Primary Care Sentinel Surveillance Network and the Strategy for Patient Oriented Primary and Integrated Health Care Innovation Network. She is also currently Canada's representative to the OECD (Organisation for Economic Co-operation and Development) for a primary care patient experience survey that will be developed and implemented across its member countries in the coming year.

TO REGISTER: This session is offered by Zoom. [Please register online here.](#)

PLEASE NOTE THAT ALL INDIVIDUALS MUST REGISTER TO ATTEND AS YOU NEED TO BE INVITED INTO THE ZOOM SESSION. Technical requirements: You need a computer with Google Chrome and a telephone or computer microphone or headset.

Archived sessions will be posted in approximately 1 week on our [website](#) and [YouTube channel](#), pending consent from the presenter.

Accreditation: **Royal College of Physicians and Surgeons of Canada – Section 1:** This event is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada, approved by Continuing Professional Development, Faculty of Medicine, University of Toronto, you may claim up to a maximum of 1 hour (credits are automatically calculated).

Each session includes a question and answer period (15 minutes per 1 hour session).
