Dr. Guillaume Fontaine

Presenters:

Dr. Guillaume Fontaine

Title:

A Global Review of >600 Implementation Science Theories, Models and Frameworks (TMFs) and the SELECT-IT Meta-Framework for Context-Sensitive TMF Selection

Learning objectives:

- Gain an overview of the global landscape of implementation science theories, models and frameworks (TMFs) and common challenges in selecting the right TMF;
- Understand how the SELECT-IT meta-framework was developed from a synthesis of 43 articles;
- Know how to apply the four-step SELECT-IT process to support systematic, context-sensitive TMF selection and documentation.
